Meenakshi Power Solutions

ADDING LIFE TO YOUR POWER

- UPS, Battery chargers, Inverters & Batteries
- Battery Management, CVT & Isolation Transformers
- Power Quality auditing, Thermography
- Stabilizers & Frequency Converters
- Industrial Solutions, AMC & Rental Services
- Data center & IT Solutions

ISO 9001:2015

ABOUT US

MEENAKSHI POWER SOLUTIONS is established in 2004 as a specialized company in Electrical Products distribution and provide reliable & best quality services.

MPS entered the market with a very clear vision to become a premier solution provider in the marketing of technology forming an interface between world class products by various manufacturers.

The company has grown over two decades in strength and has diversified its activities areas of specialization and proud to say that today **"MEENAKSHI POWER SOLUTIONS"** manufacturer's highest technology UPS Systems and customized UPS Systems for industrial critical applications.

MEENAKSHI POWER SOLUTIONS is located in Bengaluru, India equipped with competent sales, engineering, project management, commissioning and maintenance teams with two decades of manufacturing experience background. MPS has proven track record in handling high magnitude & complex projects in India and neighboring countries

MEENAKSHI POWER SOLUTIONS activities are designed towards manufacturing and offering turnkey solutions to projects that call for design, procurement, installation & commissioning and extending 24 x 7 hours after sales maintenance services (complete with stocking the recommended spare parts) on products and solution.

PRODUCTS & SERVICES

- Power Products & Industrial batteries
- Power Quality Auditing
- Battery Management Systems
- Frequency Converters, Isolation Transformers
- Data Center & IT Solutions
- AMC & Rental Services

PRODUCTS

Power Products

MEENAKSI POWER SOLUTIONS manufacturer's highest technology UPS Systems and customized UPS Systems for industrial critical applications.

UPS SYSTEMS : (1Ph / 1Ph, 3Ph /1Ph,3Ph/3Ph)

- Home Inverters & Desktop / workstation UPS Systems
- Conventional UPS Systems
- Rack mount & Modular UPS Systems
- Large facility UPS Systems

INDUSTRIAL PRODUCTS :

- Industrial grade AC UPS Systems
- Industrial Battery Chargers
- Inverter Systems for ON GRID and Substation applications
- Electronic PF Corrector Systems
- Microprocessor Controlled Servo Voltage Stabilizers
- Frequency Convertors (60Hz & 400Hz)
- Isolation Transformers
- Isolated Power Systems

Industrial Batteries

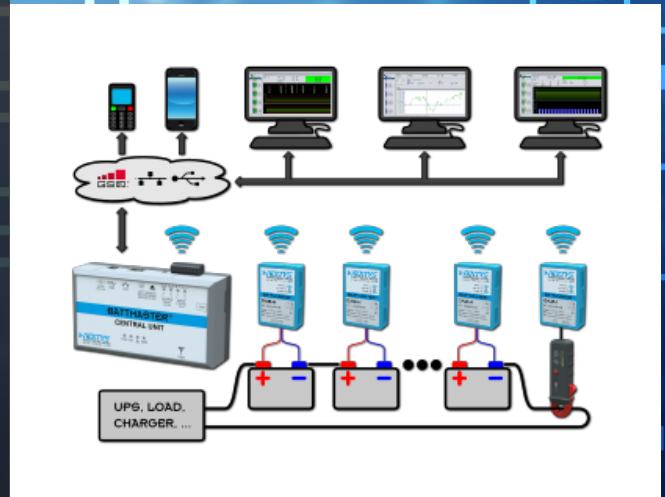

BATTERY :

- UPS high performance batteries (5 -18 years design life)
- 2V Block batteries
- Ni-cd batteries (20+yrs design life)
- Lithium ion battery

BATTERY MONITORING SYSTEM :

- MPS is committed to providing cost effective tools and services effectively manage stand by batteries. Therefore ensuring the reliability of back up power systems and minimising the risk of failure to critical systems.
- The system measures and records the key parameters of the battery bank eliminating the potential for human error. The automation of battery monitoring enables more efficient battery management helping to ensure batteries are replaced at the correct time. Early replacement is more costly to the user; late replacement increases the risk of loss of power during an outage

DATA CENTRE & IT INFRASTRUCTURE SOLUTIONS

MEENAKSI POWER SOLUTIONS is specialized in designing data centers and providing IT infrastructure solutions across India. **MPS** operates as a complete solution provider of data centers and providing following products & services.

Power:

- UPS System & Batteries
- Diesel Generators
- Data center Electrical cabling & Lighting

Infrastructure:

- Raised access flooring
- Network / Server cabinets
- Data communication cabling
- Structure cabling
- Fire proof doors, ceiling and partitions

Monitoring :

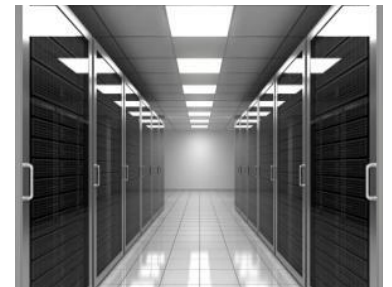

- Server Environment
- Water Leak Detection Systems

Safety & Security:

- Fire Extinguishers
- Monitoring Systems
- CCTV Systems
- Access Control Systems
- Data safe

Cooling :

- Close Control Air conditioners
- Rack Cooling
- Modular Cooling

SERVICE

At **MEENAKSHI POWER SOLUTIONS**, we are committed to provide reliable and best quality of services to all our customers. Customer satisfaction continues to remain the single most important measures of our success. Our prime objective is to provide high quality turnkey services to meet the need and expectations, including price, delivery and services of each client.

We have qualified, experienced and well trained team to handle all your enquiries. Ensures efficient delivery and provides prompt after sales service. MPS can assist in training the customers.

MEENAKSHI POWER SOLUTIONS offers warranty and contract support services as on call services with time and material to 24 x 7 operations support coverage for all its domestic and international customer. We depute our qualified engineers for all services.
